MEAT ANIMAL, MILK, AND POULTRY PDI FINAL ESTIMATES

USDA's National Agricultural Statistics Service has published final estimates for Meat Animals Production, Disposition, and Income, Milk Disposition and Income, and Poultry Disposition and Value, including revisions made by the Agricultural Statistics Board (ASB), for the production years 2008 through 2012. The production, disposition, and income from meat animals for 2008-2012 were published during calendar years 2009-2013. The disposition and income from milk production for 2008-2012 were published during calendar years 2009-2013. The production and value from poultry for 2008-2012 were published during calendar years 2009-2013. Data included in these final publications provide a historic record and a benchmark for current estimates.

Revisions were made after a thorough review of the original survey data and all additional data now available, including the 2012 Census of Agriculture. Other data series considered included slaughter data, shipment records, imports, exports, and any other available administrative information. For Milk Disposition and Income, other data series considered included Federal Milk Market Orders, receipts of milk by plants and dealers, and any other available administrative information. The 2008-2012 estimates shown herein are considered final and will not be revised again.
